Faiz Khan

+91 7238052160 | faizk12312.fk@gmail.com | linkedin.com/in/faizzkhann | github.com/devfaizzz | Prayagraj, Uttar Pradesh, India

Professional Summary

Final-year Computer Science undergraduate with strong interest across Backend Development, Full-Stack Engineering, AI Engineering, Generative AI. Proficient in Node.js, Python, and JavaScript, with experience building RESTful APIs, scalable full-stack applications, and LLM-powered agents using LangChain.

Education

United College of Engineering and Research (UCER) Oct 2023 – May 2027
Bachelor of Technology in Computer Science and Engineering | GPA: 7.98/10.0 *Prayagraj, India*

Experience & Trainings

SRJS TECHNOLOGIES PVT. LTD. Jan 2026 – July 2026
Software Development Intern *Remote*
- maintained backend and full-stack features for production systems using Node.js and Firebase, improving backend processing efficiency by approximately 80% .
- Developed and maintained automations, Whatsapp Chatbot Integration using no-code platforms (n8n, Make.com)

SmartInternz & SkillBridge Pvt. Ltd. July 2025 – Aug 2025
Machine Learning Engineer Intern (Trainee) *Remote*
- Built and deployed ML classification models (Python, Scikit-learn), integrating them into an HTML/CSS/JavaScript frontend.
- Integrated models into a Flask REST API collaborating with a 5-member team.

United Global Infosoft Pvt. Ltd. Aug 2024 – Sept 2024
Full Stack Development Intern (Trainee) *Prayagraj, India*
- Developed and implemented RESTful APIs using Node.js and Express.js
- Configured and maintained development environments, gaining practical exposure to real-world project workflow

Projects

VoiceUp — AI-Powered Civic Issue & Smart Governance Platform | *Node.js, Express.js, MongoDB, Llama 3.3 70B*
- Built an AI-powered civic issue reporting platform with role-based dashboards for citizens, contractors, and administrators
- Integrated Llama 3.3 70B for LLM-based contractor recommendations, improving resolution efficiency for city authorities.
- Implemented real-time complaint tracking with Socket.io and deployed the application live on Render

AI Career Advisor Agent | ***Python, LangChain, Gemini***
- Built a GenAI-powered career advisor agent with custom tool-calling for skill-gap analysis, roadmap generation, and personalized project recommendations.
- Developed an agentic workflow using LangChain and Gemini with custom tools to analyze user skills, identify skill gaps, and generate structured career roadmaps.

GitDecodeX AI — Intelligent GitHub Repository Analyzer | ***Python, Llama, GitHub API***
- Built an AI repository analyzer using Python, Llama, and GitHub API.
- Generated codebase summaries with structure, components, and dependencies.

LLMOpt | ***Carbon-Aware Multi-LLM Optimization Framework — Python, LLMs***
- Built a framework to estimate carbon footprint and energy consumption of LLM inference, comparing models on CO_2 emissions, latency, token usage, quality, and cost for environment-conscious LLM selection.
- Developed an LLM optimization framework to evaluate models across emissions, energy, latency, quality, token usage, and cost.

Technical Skills

Programming Languages: Python, C++, Java, JavaScript, C, SQL
Core CS: Data Structures, STL, Collections, DBMS, OOP, Operating System, Computer Networks
Frameworks: Node.js, Express.js, RESTful APIs, Tailwind CSS, FastAPI, Flask
Machine Learning: scikit-learn, pandas, NumPy, Matplotlib, Jupyter
GenAI: LLMs (Llama 3.3, Gemini, DeepSeek, Nemotron), LangChain, Agentic AI, Tool Calling
Databases: MySQL, MongoDB, MongoDB Atlas, Redis, Firebase
Tools: Git, GitHub, Docker, Postman, Socket.io, n8n, Make.com, crewAI, Google Colab
Methodologies: CI/CD, Microservices

Leadership / Achievements

- Selected as AWS Student Builder Campus Leader — 2026 (selected among 300 students nationwide from 10,000+ applicants).
- Selected as Google Student Ambassador — Cohort 2026 (Campus).
- 1st Runner-Up, ArcticX Winter TechSprint Organized by GDG AITD, Gandhinagar
- 2nd Runner-Up, UUHackDiwas'26 (300+ teams, National Level, 10,000 Cash Prize).
- Finalists: Hack18 Top 5 Finalists – NIT Allahabad; Sankalp AI Finalist (Top 10 Grand Finale), NIT Allahabad (MNNIT); SIH 2024 Top 10 (Internal Round); Best Technical Implementation Winner, UHACK 4.0
- Volunteer: Google Gen AI Exchange Bootcamp, Hyderabad; GDG Prayagraj; AKTU Zonal; Enigma XII & XIII (Organizer).
- Certifications: 5 Day AI Agents Course (Kaggle), ML, IBM AI, Postman API, SPCWCS MNNIT, Python, Web Development
